Cat.No: AR701

Air Shower (Cat. #AR 701)

AIRREX Cleanroom Air Showers are prefabricated enclosures to be used for removing surface particles from personnel prior to entering a cleanroom work area.

Typical configurations include straight thru patterns, L-shaped patterns and T-shaped patterns. The body material has coated steel or stainless steel.

A completely self-contained unit which is equipped with:

- Air Filtration System
- Blower and Fans
- Motors
- A Programmable Logic Controller (PLC)
- A solid-state programmable microprocessor
- Interlocking doors
- Lighting
- A pre-wired electrical panel
